VERTIGO MINI VANDAL 2019

With the main goal to keep on bringing novelties to the trial industry Vertigo launches its new Vertigo Mini Vandal 2019. This new model means a great step forward for the brand, as it adds a new line of motorbikes to the already established Combat range. With the Mini Vandal, Vertigo wants to reach the youngest riders with a small motorbike powered by a two-stroke engine, currently the unique bike of these characteristics in the market. Ideal for the youngest members of the family, the Mini Vandal constitutes the perfect motorbike for the future champions to make their first rides on a trials bike. This model will be available from now on through Vertigo's international dealers network in 50c.c. and 65c.c.

The Mini Vandal has been built taking into account this public characteristics. The weight system has gone through a methodic process, bringing a motorbike of only 21kg, reducing nearly by half the weight coming from motorbikes of similar characteristics.

Security is also something the Mini Vandal 2019 cares about, minimizing to a great extent the risks and aspects that might cause problems. For that reason this kids model features many efficient security systems like the ones applied to the disc brakes, the crown or the automatic stop system through magnet.

Another added value are the special trial tyres exclusively designed for the Vertigo Mini Vandal. They will offer a better feeling to the young riders, as well as a great performance without regard to the ground they are riding.
